30min	Discussion - next steps, suggestions / ideas						
10min	Closing remarks and next steps (ISSP - Andris Ozolins, Andris Sternbergs)						

Comments:

Intention - that each center presents 50% of time allocated and 50% of time is left for discussions.

Good to be focused in prepared material on possible topics of interest for collaboration for other centers participating - to foster deeper and more direct discussion and connection points.
